Kathy McCormick

The first Alberta Ecotrust Ecohome is now for sale with a \$347,000-price tag. One of the province's most energy-efficient homes, built by Jayman MasterBuilt, is located in Lake Chaparral in the southeast quadrant. It has surpassed R-2000 standards and achieved an EnerGuide for New Houses rating of 85 -- one of the highest ever, thus lowering energy costs by about 25 per cent and reducing natural gas consumption by 60 per cent. It can be viewed at www.mls.ca or every weekend from 11 a.m. to 4 p.m. at 566 Chaparral Drive S.E.
